Introducing... Terason's Newly-Designed Portable Ultrasound System

Terason introduces *the new look of ultrasound*. A fusion of Smart Technology and Smart Resolution Imaging deliver innovative and intuitive systems with elite performance.

Smart Resolution Imaging with Advanced Computer Technology provide brilliant colors and sensitivity for first-class image quality.

Smart Console Design with advanced ergonomic layout to increase productivity and performance.

The newest member of the Terason ultrasound family affords quick and easy start-up, ideal for Anesthesia, Cardiology, Critical Care, Emergency Medicine, Musculoskeletal, basic OB/GYN, Vascular and more. With our exclusive Enhanced Needle Visualization (ENV), the uSmart[®] 3300 is one powerful machine.

Terason's uSmart 3300 is One Smart System

- uConnect™ Remote Capabilities
- Latest Computer Technology
- Open Architecture
- Dynamic Depth Resolution (DDR™)
- 1 TB Hybrid Hard Drive
- Enhanced Needle Visualization (ENV)
- TeraVision™ II
- Wireless Connectivity

The New Look of Ultrasound.
